

22/1/14

To Simon Gough and Tony Blackshaw , Henley Properties and Melanie Inturrisi Henley Properties

Tony King Brivas Australia, Darren Cooper Excel Mechanical Services and Tony Van DandyAir Supplies

My name is Maria Liistro and my husband Joe and I would like to thank you for coming to our rescue regarding the Evaporative cooling system in our home, without cooling my son Sammy-Joe Liistro would be so uncomfortable, as he was in the week of the heatwave .

We have been experiencing great hardship for the last 24 years due to high medical costs and for his care, I care for him full time in my home.

My son Sammy-Joe has a life threatening illness called Trichothiodystrophy and needs to be kept cool at all times , thank you so much for co coordinating the donation of the system between , Brivas Tony King, Darren Cooper Excel Mechanical Services and Tony Van DandyAir Supplies .

The system was installed this morning and is working . I am so grateful to you all for all your generosity and kindness, please do send me logos and links to all your websites so I can paste it in the thank you page of our website to show our appreciation for your kindness
www.friendsofsammyjoe.org.

Thank you again, there are not enough words to express our gratitude, but please know that you have made Sammy-Joes environment more comfortable for him. His life is hard enough and having to deal with heat as well was just unbearable for him.

With kindest regards

Maria Liistro
